DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-8, line 1, "An relief" has been changed to --A relief--.

Allowable Subject Matter

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teaches a relief smoothing device for smoothing an image on a recording sheet in an image forming apparatus comprising a plurality of tension rolls including a first roll and a second roll in a press contact with the first roll through an endless belt stretched over the tension rolls to form a nip portion; a heating source for heating the first roll and the second roll; wherein the time required for the recording sheet to pass through the nip portion satisfies the following formula:

$$(T_v + 55) \times (1 + 1/100 t) \geq T_n \geq (T_v + 20)/(1 + 1/100 t) \text{ degree C;}$$

Where T_n is the surface temperature of the first roll, T_v is the Vicat softening temperature of the polyolefin resin, and t (sec) is the time required for the recording sheet to pass through the nip portion.

Art Unit: 2852

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tan et al, Finn et al, and Ishikawa et al disclose other examples of smoothing devices used in an image forming apparatus.
